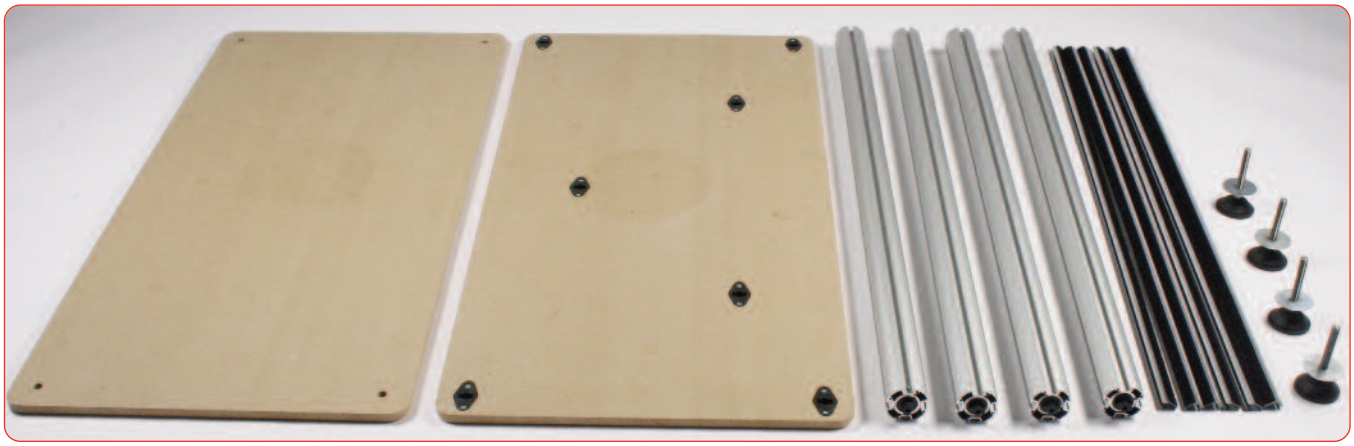
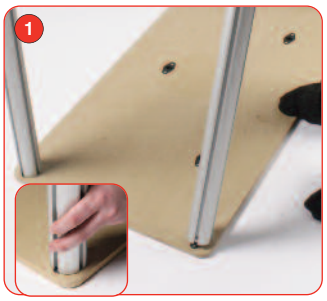
Assembly Instructions



Kit Includes: 1x table top, 1x base, 4x linear 50mm round post, 4x adjustable fit, 6x wing extrusion
Kit based on **LK029-001**



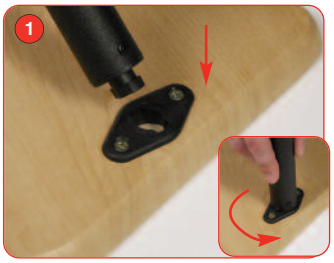
Start by placing the top of the counter face down with the twist and lock locators facing up, place the posts into the twist and lock locators and twist anti-clockwise to lock and clockwise the to unlock

place the base of the counter over the linear post and place the adjustable feet through the washer and into the base of the counter, screw into the post until in required position, Hand tighten the bolts to secure into place.

Turn the unit round the right way up, and start to attached the PVC wing extrusion. To attached the wing make sure the loop side of the PVC wing is facing out and simply click the PVC wing into the channel on the post

To attached the graphic simple place the graphic into place and push firmly against the PVC wing extrusion until in required position

Internal shelf assembly



To attach the internal shelf insert the twist and lock pole into the locator on the shelf

Lift the internal shelf to the shelf locators on the base side of the table top. Twist each pole into place until fully secure
